ROOM BOOKING

To ensure that room reservation dates match up with travel dates, CIRYS business rules can require lodge reservations be confirmed before fights or busses are booked. This allows for significant cost avoidance and - in a worst-case scenario - reliance on third-party accommodations.

REAL-TIME REPORTING

CIRYS gives clients access to real-time, accurate reporting that provides greater insight and capacity for analysis. This helps to significantly reduce travel program costs and optimize asset utilization.

FLIGHT BOOKING

CIRYS converts complex, multi-step bookings, using disparate systems, into one intuitive process. Using the innovative group book function, reservations for 2 or 200 workers can be made in as little as 30 seconds, saving significant time, resources and administration.

HIGHLY CONFIGURABLE

We recognize that each project has its own individual transportation requirements. Whether it's wheels, wings, sails, or rotors, CIRYS can be configured to suit your needs on any scale.

TRAVELLER APP

Up to date and on your phone, all the information is accessible at your fingertips. Our CIRYS Mobile App allows travelers to view consolidated itineraries, preselect seats, and check-in to charters via QR codes

CAMPWARE INTEGRATION

Fully integrated with CampWare giving management synergized oversight of both travel and accommodation bookings. Greater information and ease of use leading to more informed decision making.

AN INTUITIVE, WEB-BASED RESERVATION AND REPORTING TOOL FOR ALL YOUR WORKFORCE TRAVEL AND ACCOMMODATION NEEDS.
